### Professional Summary

Full Stack Software Developer seeking an employment opportunity in a challenging and dynamic environment.

Undergrad in Computer Information Systems with a proven track record in building several full stack applications during my time at Boise Codeworks--a Coding Bootcamp that specializes in teaching the craft, and the industry. I am a developer who can contribute creative solutions, a diverse skill set, and a passion for coding in hopes of lifting my team up, and encouraging growth in anyone I work with.

### Technical Skills

#### Languages, Frameworks, and Databases

- Javascript
- C# .NET
- Vue.JS
- MySQL
- HTML5
- Dapper
- Bootstrap
- Node.JS
- MongoDB
- Scrum / Agile Development

#### Programs

- Visual Studio Code
- Postman
- Sublime Text
- Microsoft Office Suite

### Development Projects

#### •Capstone

-Worked on a team of 5 to create a pet adoption website with use of PetFinder's API. Users can browse pets with specific search criteria, view pets, and save favorite pets to view for later.

#### •Kanban

-Worked on a team of 3 to create a project organization site similar to Trello Boards. Utilizes Node.js, Vue.js, the observer pattern, and user auth.

#### •Keepr

-A solo full-stack project creating a website similar to Pinterest. Users can browse and submit new keeps, and save them to personalized vaults for later viewing. Utilizes C#, MySQL, Dapper, and successfully implements complex data relationships.

### Professional Experience

- |         |  |           |
|---------|--|-----------|
| Student | <ul style="list-style-type: none"><li>• Boise Codeworks</li><li>• Attended a 13 week program on full-stack software development with 500+ hours of real world experience</li><li>• Created a variety of applications both on teams and individually</li><li>• Skilled in industry best practices</li><li>• Self driven to learn and grow development skills</li><li>• Early adoption of agile development allowed for the most immersive workplace experience instead of learning in a vacuum</li><li>• Developed tremendous problem solving skills, and an ability to jump in and meaningfully contribute to code I've never seen</li></ul> | 2019-2019 |
